

Fortum has today formally notified the European Commission of our intention to become a major shareholder in Uniper

May 7, 2018: Fortum has today formally notified the European Commission of our intention to become a major shareholder in Uniper. This notification is part of the ongoing process to obtain the required regulatory approval from the European Commission and follows a customary period of constructive pre-notification engagement with the Commission's case team. We will continue to maintain an ongoing dialogue with the case team throughout the remaining process and are confident that we will secure the remaining required regulatory approvals in a timely manner.
